

Hailea ACO-308

Hailea Electromagnetic Air Compressor Pumps produce strong air flow perfect for hydroponics, aquaponics, aerponics, septic tanks, fish farms or aquariums with multiple set ups (protein skimmers, ozone generators, etc). The case is made of high-quality ZL 102 aluminium alloy with streamline design, so that heat-dissipation is more effective. It's driven by electrical magnetic motor, adopt straight-line reciprocal motion to produce air and more reasonable in structure. Uses the new type wearable material SF3 for the cylinder and piston, which is of low power consumption, large air output and high air pressure. Non-oil lubricating design, the compressed air is purified. Specifications: Output: 45 L / min Power: 20 W Noise level: Voltage: 110 / 220v Frequency: 50 / 60hz Pressure> 0.018 Mpa Dimensions: 159 x 90 x 95 mm Weight: 1,2 kg

Description

Hailea Electromagnetic Air Compressor Pumps produce strong air flow perfect for hydroponics, aquaponics, aerponics, septic tanks, fish farms or aquariums with multiple set ups (protein skimmers, ozone generators, etc).

The case is made of high-quality ZL 102 aluminium alloy with streamline design, so that heat-dissipation is more effective. It's driven by electrical magnetic motor, adopt straight-line reciprocal motion to produce air and more reasonable in structure. Uses the new type wearable material SF3 for the cylinder and piston, which is of low power consumption, large air output and high air pressure. Non-oil lubricating design, the compressed air is purified.

Specifications:

Output: 45 L / min

Power: 20 W

Noise level:

Voltage: 110 / 220v

Frequency: 50 / 60hz

Pressure> 0.018 Mpa

Dimensions: 159 x 90 x 95 mm

Weight: 1,2 kg
