Bottle	3-538	1
Bottle Tubing	3-587	1
Filter	3-541	1

*These estimates are based on the assumption that 50 patients are treated with one Pumani bCPAP device per year. You may need to adjust these quantities if your facility's patient load is significantly higher or lower than this estimate.

**These items are labeled as single-use only; HHT recommends that you follow your facility's standard cleaning procedures if you chose to reuse these items at your own risk.

^HHT recommends that the hats are single-use only, as the hats will stretch after use and will not stay on the patient's head as well.
